this book supplies the definitive contemporary history of education policy in the late twentieth century some of the leading educationalists reflect on the major legislative and structural changes in the field over the last 25 years

how do young children develop scientific understandings skills and attitudes what is effective scientific teaching and learning in the early years how can early years practitioners be creative providers and develop awe and wonder of the world in the children they teach the second edition of this bestselling title celebrates good scientific practice in the early years with children up to eight years of age for professionals and students working with children up to eight years

across the globe citizenship education is high on the reform agendas of policy makers and educators the collapse of the soviet union and the entry of former soviet bloc states into the european union the fragmentation of the former yugoslavia the major population movements from poor to rich countries and the increased threats of international terrorism and civil wars in many states have all added to the need to provide up dated and reflective approaches to citizenship education within nation states the impact of globalisation on social economic and political structures has caused power shifts across and within international borders demanding greater citizenship awareness and participation the effect of these changes and the practice and needs of citizenship are profoundly affected by the distinctive particulars of the places in which they occur this is an essential ingredient in any understanding of what is happening and of any program addressing the resulting citizenship challenges too often citizenship education has been perceived simply as a matter for schools in this book the discussion is extended to embrace post school education it is acknowledged that the educa

comparative education the dialectic of the global and the local remains the same groundbreaking book when it first debuted its collection of outstanding scholars in examining the changing transnational landscape of education with the addition of new

coeditor stephen franz the book provides new perspectives on the dynamic interplay of global national and local forces as they shape the functions and outcomes of education systems the book calls for a rethinking of the nation state as the basic unit for analyzing school society relations and emphasizes the need to study social movements in relation to educational reforms it also emphasizes the value of feminist postcolonial and culturally sensitive perspectives for inquiry into the potential of education systems to contribute to individual development and social change this new edition incorporates recent developments in scholarship especially in education policy and practice the impact of the global economic crisis and a new chapter on education in the european union
